Exhibitor Testimonials on the Trio 2016

“Good flow of traffic. It’s a very effective way of seeing a lot of people in a short time. Our intention is to attend again next year.”
Jane Isaacs, Director General Association of British Mining Equipment Companies

“We meet all our customers over these four trade fair days. Our participation in the forthcoming trade fair 2017 is therefore already given.”
Jerzy Keller, Sales Director Russia, Belarus, Kazakhstan KOPEX Group, Poland

“By extending the themes covered to include ore and industrial minerals this trade fair has also tremendously increased in importance for us. This is why we plan to stress the minerals segment even further at the forthcoming event.”
Artur Hubert, Sales Director CIS Hazemag & EPR, Germany

Trade Fair Trio for Mining in Russia

The Investment Centre for Russian Mining: 3 Trade Fairs in Novokuznetsk

Mining, exploitation, processing and refining of coal, metals and industrial minerals, also covered from the occupational safety & health perspective: the 3 trade fairs under one roof cover the entire spectrum of mining as well as that of safe working conditions. A concept that has proven its worth:

UGOL ROSSII & MINING with a focus on coal mining
NEDRA ROSSII with a focus on ore and industrial minerals
SAFETY & HEALTH for safe working conditions

More than 27,000 international trade visitors and 500 all-round satisfied exhibitors from 25 countries – this is the positive verdict on the joint event in June 2016. And 2017 should be even more successful. Because the Russian market will become even more important than before for all suppliers of products, machinery and services for coal mining as well as metals and industrial minerals.

More Activity – Greater Demand
Production of Russian coal is on the rise. 2015 saw 372 million tons being mined, two thirds of this from the Kuzbass Basin. And the mining of ore and industrial minerals is also rising and made more efficient by major investment. Mine safety and the protection of workers play an ever greater role here.
