

CHINAPLAS 2017 has it all. With its theme of "Intelligent Manufacturing, High-tech Materials and Green Solutions", the show has its finger on the pulse of current trends. This dynamic trade fair attracts visitors from around the world who come to see the diverse mix of products and services on display from leading Chinese and international suppliers alike. Attendees will find everything from practical, mid-level exhibits to high-end, cutting-edge solutions that are being introduced for the first time. Come see functional material, machinery, automation, design and processing solutions for every major end market - from packaging and automotive, to construction, electrical/electronics, medical and more. Enterprises of all sizes will find answers to challenges ranging from operation optimization and cost savings to sustainability and new product development.

No. of Exhibitors
3,300+
from 40 countries & regions

12
Country/ Region Pavilions

No. of Technical Seminars
50+

Machine Exhibits

- Injection Molding Machinery Zone
- Extrusion Machinery Zone
- Plastic Packaging Machinery Zone
- Film Technology Zone
- Rubber Machinery Zone
- Automation Technology Zone
- Auxiliary & Testing Equipment Zone
- Recycling Technology Zone
- Die & Mould Zone
- Chinese Export Machinery & Materials Halls

Material Suppliers

- Chemicals & Raw Materials Zone
- Additives Zone
- Bioplastics Zone
- Colour Pigment & Masterbatch Zone
- Composite & High Performance Materials Zone
- Semi-finished Products Zone

Cutting-edge Technology docking with the THREE main themes

Intelligent Manufacturing

To remain competitive, manufacturers constantly strive to upgrade their production technologies and product quality, and "smart manufacturing" is one of the key strategies being adopted to enable such continuous improvement. By adding an "Automation Technology Zone" to its well-established "Machinery Zones", CHINAPLAS 2017 will present the latest intelligent manufacturing technologies to the plastics, rubber and end-user industries.

ABB ENGINEERING (SHANGHAI) LTD.

Dual-arm Industrial Robot, YuMi

ARBURG (SHANGHAI) CO., LTD.

Allrounder Golden Electric

DEMAG PLASTICS MACHINERY (NINGBO) CO., LTD.

Automation Solution

High-tech Materials

The global trend of pursuing a circular, low-carbon economy, combined with demand for ever-increasing product sophistication, is driving the need for high-tech materials. At CHINAPLAS 2017, more than 1,000 suppliers will showcase their latest offerings in this area, including advanced composites and high-performance engineering plastics. Be sure to check out the show's "Chemicals & Raw Materials Zone", "Composite & High Performance Materials Zone" and "Bioplastics Zone".

DUPONT PERFORMANCE MATERIALS

Zytel® Resin Improve Its Ability To Absorb NVH

DOW CHEMICAL PACIFIC (SINGAPORE) PTE LTD

INNATE™ Precision Packaging Resins

NATUREWORKS LLC

Ingeo® Bioplastics

Green Solutions

Conserving resources and adopting eco-friendly materials and technologies are keys for business sustainability. To align with this trend, CHINAPLAS 2017 will display a wide array of green solutions applicable to different manufacturing industries, while also featuring a dedicated "Recycling Technology Zone".

JIANGSU FANGSHENG MACHINERY CO., LTD.

PE, PP film cleaning line

NATIONAL RECOVERY TECHNOLOGIES (NRT)

Plastic optical sorting machine for polymer and color

TOMRA SORTING TECHNOLOGY (XIAMEN) CO., LTD
