# EXHIBITOR REVIEW

**Covestro LLC,**

**Albena Vassilieva, Communications, PGA & Sustainability Russia/CIS**

«Historically we have many clients in the Volga Region... here develop both construction and automotive industries, there are many suppliers here – they all are our clients, there are also many potential clients. Tatarstan Republic is actually a republic that is making good headway, and it is in our interests to visit it once again, to draw attention to ourselves, to introduce to our product»

**GUMMIWERK KRAIBURG GmbH & Co.KG,**

**Oksana Minol-Rakhalsky, Sales Director Russia**

«We are in Kazan for the first time and we really liked the organization of the exhibition, thanks to the company Messe Düsseldorf. We met here many interesting proposals. We're glad that this exchange of experience is very interesting, from students to experienced specialists from various industries»

**Gabriel-Chemie Russia LLC,**

**Victoria Tsvetkova, Internal Sales Manager**

«For us this is first of all an opportunity to meet our existing clients, as we have already been working in Tatarstan. Among our customers are compounders, moulders, producers of fibre, film, and packaging. New companies and new projects also appear... For example, we have been approached by our future partners from Togliatti who came with a very interesting project that has no equals in Russia yet. They heard that we are here and came specifically to communicate with us.»

**MACCHI RUSSIA,**

**Vyacheslav Ryabov, Head of Representative Office MACCHI RUSSIA**

«Already on the second day of the last year exhibition we made a clear decision that we will participate a second time in 2016. Due to the length of the equipment sales project completion cycle, it is more difficult for us to assess direct benefits of any event or an exhibition. Last year's Interplastika in Kazan is an exception. Before the fair there had been clients who had doubts, who compared various alternatives, but having spoken with them at the exhibition we won the project.»
