# NEFTEGAZ 2017: KEY EVENT FOR THE RUSSIAN OIL AND GAS INDUSTRY REGISTERS TO THE TUNE OF 20,200 TRADE VISITORS

**NEFTEGAZ 2017** – the International Exhibition for Equipment and Technologies for the Oil and Gas Industry – succeeded in impressively confirming its role once again as the most important industry meeting point for experts from all over the world: to the tune of 20,200 international trade visitors travelled to Moscow to find out about the latest developments in the fields of equipment for the oil and gas industries.

**586 exhibitors** from **26 nations** presented an extensive product portfolio on over **59,400 sqm** in the sector such as Gazprom, Tatneft, Transneft and TMK met with major international, household-name exhibitors like R&B Industrial Supply Company, Honeywell Process Solutions, Jumo, Kanex-Krohne, China Petroleum Technology & Development Corporation or Schneider Electric at **NEFTEGAZ 2017**.

Alongside the latest extraction technologies for oil and gas reserves the trend themes at many stands were the future of the raw materials business all the way down to modern environmental monitoring systems and the trend towards Industry 4.0.

**NEFTEGAZ 2017** was again accompanied by a varied programme of seminars, panel discussions as well as the concurrent Oil & Gas Forum for Oil and Gas Extraction Technologies.

**NEFTEGAZ** is an event where everybody gets together. Our stand is attended by new customers, new partners as well as colleagues using our equipment; they share their views on our products. Interaction with customers within the scope of this exhibition stimulates further development.

**ROMAN TAGANOV, DIRECTOR, GAZPRIBORAVTOMATIKA COMPANY OF GAZPROM AVTOMATIZATSIYA**

At **NEFTEGAZ 2017** we introduced trade fair visitors to the "Connected plan Concept", to name but one idea, which foresees the integration of IIoT-technologies (industrial Internet of things) in operation. At our exhibition stand a programmable logic controller of the new generation Control Edge PLC with OPCUA server was presented in Russia for the first time. This device guarantees cyber security, multi-vendor compatibility, efficient operation, easy handling and maintenance of plants. Furthermore, Honeywell presented a new line of products for gas measuring and reduction, manufactured by ELSTER Gaselektronika, a company forming part of our group. We tackle our trade fair participation very carefully: we prepare and try to impress our audience with innovative solutions. Our company has been represented in the oil and gas industries for a long time now and quite successfully. This is why Honeywell's showcase as part of **NEFTEGAZ** is a key component of our image. For Honeywell **NEFTEGAZ** has become a good tradition, which we want to continue developing and promoting.

**SERGEJ POPOV, MARKETING MANAGER RUSSIA/CIS AT HONEYWELL**

Our company has already had an exhibition stand at **NEFTEGAZ** for 20 years. With our participation we aim to make new business contacts and maintain existing ones. To us meeting with our potential buyers means an additional opportunity to disseminate information about Jumo products for the energy industry. Usually, we exhibit two to three new products at the exhibition. Our products are developed in line with the specifier's requirements and market needs. Our participation in the exhibition was very successful and resulted in a good deal of business. I think we will take part again in **NEFTEGAZ** with a stand.

EXHIBITORS

## FAIRGROUND EXPOCENTRE IN KRASNAYA PRESNYA IN MOSCOW IS ONE OF THE MOST ADVANCED AND ATTRACTIVE TRADE FAIR VENUES IN THE CIS.

The complex has an exhibition space of over 70,000 sqm including eight halls and attractive outdoor grounds. Its conference halls with a total space of 2,000 sqm provide a professional setting for a supporting programme of talks, round-table discussions and workshops. The quality and location of the grounds meet the highest standards.

- Excellent infrastructure: Shops, excellent European standard restaurants, a bank, post office and kiosk on the exhibition grounds and hotels in near vicinity
- Efficient utilities: Electricity, water and communications systems satisfy the highest demands
- Central location: Close to city centre
- Direct access to the exhibition grounds via the Metro

## MORE OPPORTUNITIES AT NEFTEGAZ 2018

In 2018 **NEFTEGAZ** and the **National Oil and Gas Forum** will be once again colocated with Russia's largest electric show – the Elektro International Exhibition for Electrical Equipment, Lighting Engineering and Building Automation!

Both visitors and exhibitors rated the colocation of these three events in 2017 very highly. These joint efforts create the largest showcase of equipment for the fuel and energy sector in Russia.

**WE ARE LOOKING FORWARD  
TO ASSIST YOU.**
