

## Post Show Report

### Neftegaz 2017

17<sup>th</sup> edition of the International Exhibition for Equipment and Technologies for the Oil and Gas Industries

Neftegaz 2017 has once again proved to be Russia's largest trade show for the oil and gas industry. It ranks in the top ten of the world's petroleum shows. Exhibited products cover all segments of the current oil and gas industry. Key sectors are devoted to automation, petrochemistry, the latest developments of service, transport and engineering companies.

**Dates:** 17–20 April 2017

**Venue:** Expocentre Fairgrounds

**Organized by** Expocentre AO, Messe Dusseldorf GmbH (Germany)

**Supported by** the Russian Ministry of Energy, Russian Ministry of Industry and Trade

**Auspices of** the Russian Chamber of Commerce and Industry

**Logos:** UFI, RUEF

**Exhibition area:** 54,638 sq m

**Exhibitors:** 586 companies

**Foreign exhibitors:** 229 (Bauer Kompressoren, Centrax Gas Turbines, Honeywell Process Solutions, Kanex Krohne, Phoenix Contact, R&B Industrial Supply, Schneider Electric, Weidmüller Interface, Yokogawa Electric, etc.)

**Russian exhibitors:** 357 (Burintekh, Gazprom Bureniye, Gazprom StroyTEK Salavat, Motovilikha Plants, Paker, Rosatom, Surgutneftegas, Tatneft, TatProm – Holding, Transneft, ChelPipe, TMK, Uralmash Oil and Gas Equipment Holding, etc.)

**Total attendance:** 18,664 unique professional visitors

**Countries:** 26

**International pavilions:** China, Czech Republic, Finland, Germany

**Types of products on display:**

- Oil and gas exploration
- Oil and gas field development
- Oil, gas, oil products gathering, transportation and storage
- Oil and gas processing, petrochemistry
- Equipment and technology
- Locking and regulating fittings
- Power and electrotechnical equipment. Cables. Welding equipment
- ACS and telemechanization. Instrumentation. Metrology
- Corrosion prevention for equipment and pipelines
- Ecology, environmental monitoring
- Labour protection, safety systems
- Russian R&D

**Sponsors:**

Sponsors: 30 (R&B Industrial Supply Company, official sponsor; SLC Group, official partner; Burintekh, video broadcasting sponsor; ART-Osnastka, navigation sponsor; Electronmash, electronic registration sponsor; section sponsors: Vira Realtime, Systema-Service, Kurgankhimmash, Nefteavtomatika, TatProm – Holding, Zenit-Himmash, ChelPipe Group; exhibition partners: TREM Engineering, Energomash, Nefteservispribor, NKMZ Group, PMI Systems, Prosoft-Systems, Tekknow, Incomsystem, PSI, Sintek, Promsensor, Himmash-Apparat, Goreltex Plant, Yokogawa Electric CIS, NZGU (Boudouin official representative in Russia), Zavod Innovatsionnyh Tekhnologiy, NPF Paker, Oktyabrsky; Schneider Electric, partner of Neftegaz 2017 and Elektro, organizer of the [Innovation Summit 2017](#).

## Show Highlights

1. This year Neftegaz was co-located with the 26<sup>th</sup> edition of the **Elektro** International Exhibition for Electrical Equipment, Lighting Engineering, Building Automation. It is a perfect combination of events for the fuel and energy sector. Direct contacts between manufacturers of oil and gas and electrical equipment increase the events' efficiency and promote industrial cooperation between enterprises of this country's main economic sectors.

2. It is the second time that Neftegaz was joined by the **National Oil and Gas Forum**. The events brought together representatives of relevant ministries and departments, oil and gas companies, research organizations, equipment manufacturers, key industry experts. It is an efficient tool that facilitates cooperation of the Russian government and relevant ministries with representatives of oil and gas companies.

The forum was opened with the plenary session on the strategy of scientific and technical development of the oil and gas industry: government regulation, market incentives and international cooperation.

The first day also featured the session on competition among oil and gas technologies: import substitution in key sectors of the oil and gas industry, localization of production and export potential of the Russian fuel and energy industry, round tables on analyzing main development areas of the oil and gas industry, and IT in the oil and gas industry: practical aspects of import independence and cybersecurity.

The second day offered round table discussions mostly focused on technologies and innovative potential of the Russian oil and gas industry.

3. The Neftegaz 2017 Mediacentre provided information support and hosted press events of Harel Ros, Himmash-Apparat, PIEZUS, TAM International, Arcutex, NTS, Cable Alliance Holding, Vira Realtime, and REAM Group. The Neftegaz.Daily helped both exhibitors and visitors to Neftegaz to navigate the halls of the exhibition, find companies they search for, and be up to date with the most interesting associated events.

4. **Schneider Electric, the partner of Neftegaz 2017, organized the Innovation Summit 2017 forum and exhibition** showcasing innovative solutions for energy efficiency and energy saving, manufacturing processes and technologies.

More than 100 associated events covered the most relevant issues of the industry. The main focus was made on the Industrial Internet.

## Feedback

Russian Minister of Energy Alexander Novak

“Over the years, Neftegaz has proved to be one of the leading exhibition and discussion platforms where professionals have a great opportunity to evaluate the energy market, map out development priorities, and discuss the most relevant issues and problems ... I am positive that this edition will once again become an additional driver for development for all its participants. The relevance of the agenda and the large number of influential people participating show not only a mutual interest but also a readiness to work together. It is well-timed and very important.”

Russian Deputy Minister of Energy Kirill Molodtsov

“Neftegaz has many influential participants and visitors. It offers a great number of exhibits. It shows the industry’s both short-term and long-term goals. The exhibition brings together industry professionals and people interested in understanding what is going on in Russia and projects carried out by Russian companies which influence not only the Russian and global oil and gas industry but also the global energy security.”

President of the Union of Oil and Gas Producers of Russia Genadiy Shmal

“Neftegaz is a driving force of the technological progress of the oil and gas industry. This industry is not dead despite the difficulties. Moreover, looking at the exhibits it is obvious that it is reviving. Our oil and gas industry community is thankful to all exhibitors.”

Executive Director of Messe Dusseldorf GmbH Erhard Wienkamp

“Foreign companies are still eager to enter the Russian market. If one wants to grow in this market, Neftegaz is a unique platform which allows doing it.”

System Architect of Schneider Electric AO Alexey Solovyov

“We are ready to show our products, share experience and help to introduce our technologies. We expect them to be further developed and used. Neftegaz and Elektro are co-located with our exhibition and are partially connected with processes and events that we cover.”
