Clear, well-founded and future-oriented

Driving force, marketplace of possibilities, international industry meeting point – REHACARE, Europe's leading trade fair for rehabilitation and care, offers trade visitors the opportunity to gather first-hand comprehensive information from all across the world. Numerous areas, which are relevant to a life on equal terms for people with a disability, chronic illness or in need of care, are represented at the trade fair and present a pool of information from which experts, decision makers and professionals are able to draw.

On the one hand, REHACARE is an international product exhibition. On the other hand, it is a platform for a comprehensive transfer of knowledge regarding care and rehabilitation. Here, the focus is on new aids and findings that will basically make a self-determined life possible for people with disabilities, in need of care and the elderly. Innovative solutions for almost every area of life and every disability make this an outstanding event for the industry.

| Leisure, sports and recreation |
| Travel |
| Associations, institutions, organisations |

This awaits you at REHACARE

700 exhibitors from more than 30 countries are expected at REHACARE 2017. A trend, which has become noticeable over the last years, is the growing internationality. In 2016, more than 50 per cent of the companies, institutes and organisations came from abroad for the first time. This development creates the ideal prerequisites to find interesting networks, to establish contacts and to enter into business relationships – far beyond national borders.

The range on offer at the event is diversified and presented in a very structured manner. Four days long, you will find the very latest information on all topics regarding care, rehabilitation or inclusion in Düsseldorf: mobility, communication, medical care, therapies, everyday aids, modern assistance systems, construction and living, education and training and much more. In this environment, you as a trade visitor will encounter national and international experts, who are committed to this diversified industry for a self-determined life.

Number of exhibitors REHACARE 2016

REHACARE Congress “We for the quarter“

On 6 October, the REHACARE Congress again extends the invitation to analyse the development of age-appropriate living quarters and to exchange experiences interdisciplinary. This year, the focus is on the financial feasibility of models for living quarters. Both during the main presentations and at subject tables, economical aspects and business concepts in the city district will be highlighted.

At the adjoining product market, for example, exhibitors present themselves, who are from the areas of social economy, construction and housing industry – as well as financial service providers, who are busy with the development of living quarters. Admission requires a separate ticket.

You will find more information about the congress at:
www.rehacare.de/congress

Platforms, meeting points and knowledge transfer

Forums, theme parks, lectures and seminars ensure a comprehensive supporting programme and invite you to get the latest updates and gather current information:

REHACARE Forum: Lectures highlight a selection of different subjects such as the medical aids reform and the Bundesteilhabegesetz (Federal Participation Law), the role of the administrative integration body and living arrangements for patients. In addition, innovative products are introduced through this platform.

Living with Care @home: Specialist seminars and workshops deal with the topic of home care and its daily challenges. The first day of the event entitles to Initiative Chronic Wounds certification points for outpatient caregivers. For more information go to: www.rehacare.de/care_seminars

Exhibitor lectures: Companies present their innovative products in detail and provide further information.

Sports Center: Strategies and sports activities, which present various possibilities to remain fit and active for people with a disability or the elderly.

Theme park People with Disabilities and Employment: Support possibilities and consulting services for people with disabilities at work.

Accessible travelling for the disabled: Travel organisers, hotel accommodations, tourism companies and associations present offers for people with disabilities.

Kid's World: Integrative childcare will professionally take care of small children, while trade visitors are concentrating on their trade fair visit.

You will find the complete overview of the theme parks, forums and lectures at: www.rehacare.de/special_forums
