Tube and Pipe Industries

Supported by:

Held in conjunction with:

INDIAN ECONOMY OVERVIEW

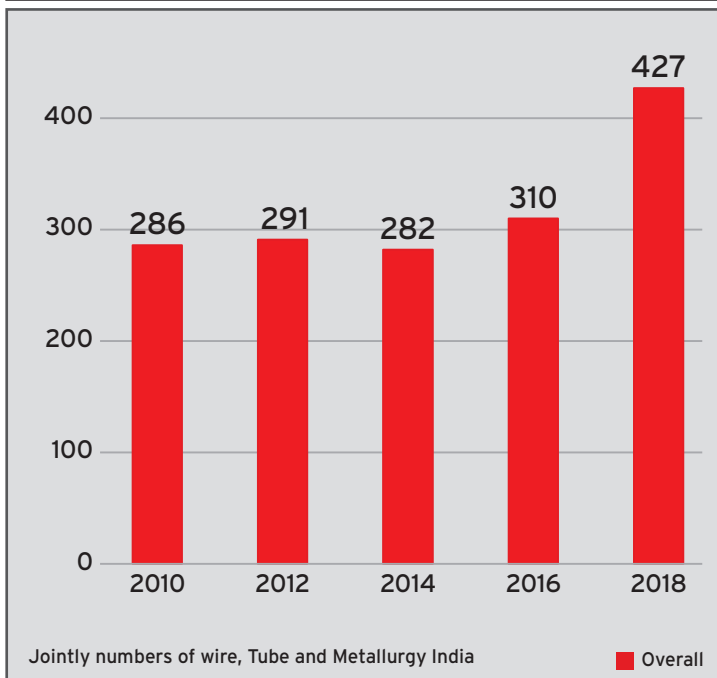

- The industrial tubes market is estimated to be US\$ 478 billion in 2018 and is projected to reach US\$ 632.6 billion by 2023, at a CAGR of 5.8%
- India's economy is capable of absorbing US\$ 50 billion in foreign direct investment per year.
- India is expected to become the fifth largest manufacturing country in the world by the end of year 2020.
- The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020.
- India's infrastructure financing requirements and the new manufacturing policy will open up US\$ 1 trillion opportunities for global investors over the next five years.
- The Indian automobile industry, the 7th largest in the world, has currently been estimated to have a turnover of US\$ 73 billion, accounting for 6% of its GDP. It is expected to be the third largest by 2020.

EXHIBITORS TESTIMONIALS

"The participation from Oil and Gas Industry was good and fruitful" at Tube India 2018" - **WELSPUN CORP LIMITED**

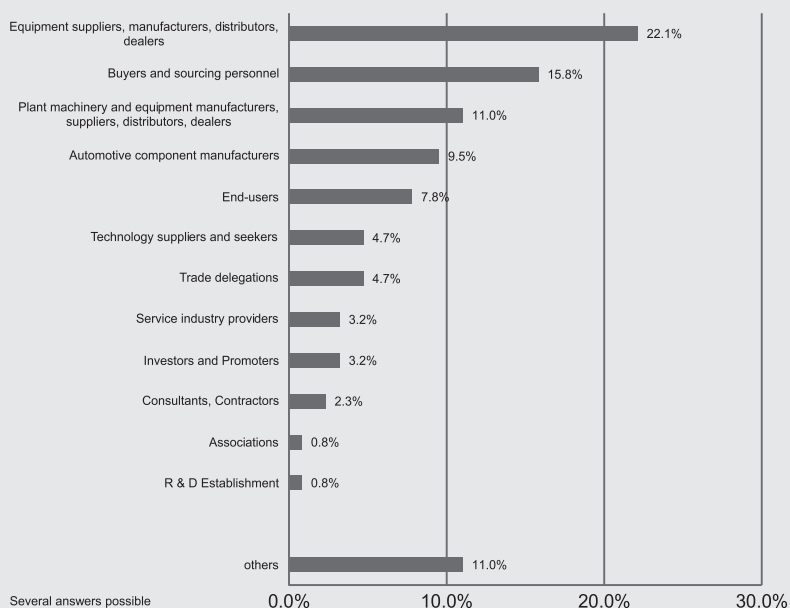

"This was our first time at Tube India and it was a great experience as the turnout of visitors was more than what we expected. We had a good number of enquiry and a lot of potential customers. Also, the ambience of the exhibition hall and the hospitality was of remarkable standards. Best of luck for Tube India, 2020" - **PROMPT ENTERPRISES PVT. LTD.**

"Excellent show and arrangement with quality visitors. Keep it up" - **RAVIK ENGINEERS PVT. LTD.**
