Day 2 at **Arab Plast**: it was amazing. Normally I can walk around and visit booths of exhibitors. This time? No real chance. Customers, potential customers with new and really interesting projects were visiting our **PLATINUM INDUSTRIES PVT. LTD.** booth. A lot of discussion, talks, small talks and saying hello only. I don't exaggerating. The most welcome message was: the reputation and acceptance of **PLATINUM INDUSTRIES PVT. LTD.**'s service has very much improved. (Again no exaggeration. I'm a scientist. I don't make compliments. I only report what I observed.) So, thank you very much to all customers and visitors but also to the entire Platinum

Last day of the smaller, but perfectly formed Arabplast 2021. Restrictions in certain areas has meant that numbers were down on previous years, but it's been a busy time and the enthusiasm of exhibitors and visitors have made it a fantastic event.
