CIO SH Asia (Beijing) Co., Ltd.

About CIOSSH

Established in 1966, the China International Occupational Safety & Health Goods Expo (CIOSSH) has developed into the country's foremost platform for protective equipment and safety technology, serving critical sectors such as construction, chemicals, metallurgy, mining, and energy. With nearly six decades of expertise, CIOSSH stands as a key driver of innovation and advancement in China's occupational safety and health industry.

By expanding the exhibition categories and building a comprehensive framework that integrates Safety at Work, Security at Work, and Health at Work, CIOSSH is reshaping the industry landscape in China. This year, the exhibition underscores the transition from traditional personal protection solutions to a systematic safety ecosystem. Bringing together cutting-edge technologies, emerging applications, and global resources, CIOSSH empowers enterprises to boost innovation, enhances the international visibility of Chinese brands, and fuels the high-quality growth of the industry.

Four Key Upgrades of CIOSSH 2026

Security at Work Zone

CIOSSH 2026 will unveil the Security at Work Zone, expanding beyond PPE to deliver comprehensive safety solutions for industrial workplaces. From fall protection and fire rescue to exoskeletons and hazardous substance management, the zone will showcase integrated systems for risk prevention, operational safety, and emergency response.

Spotlight on Industry Chains

CIOSSH strengthens connections across the entire industrial value chain—linking raw materials, key components, smart equipment, and end applications—creating a complete ecosystem from R&D to real-world implementation. Supporting activities such as the Innovative Materials Launch, matchmaking sessions, and brand awards will enhance visibility, foster collaboration, and generate new opportunities for exhibitors.

Four Key Upgrades of CIOSSH 2026

Debut of Trend Forum

CIOSSH 2026 will introduce the inaugural Trend Forum, a high-level platform bringing together leaders from industry associations, research institutes, and top enterprises in manufacturing, energy, and chemicals. Discussions will focus on the evolution of EHS management, innovations in occupational health, and transformations in safety practices, with particular emphasis on smart protective technologies, sustainable safety systems, and workplace mental health.

Grand Return of Safety Fashion Show

The Safety Fashion Show will return with an upgraded format, presenting dynamic PPE showcases ranging from helmets and respirators to protective suits and footwear. With immersive staging, the show will highlight the balance of functionality, comfort, and design. As a high-visibility platform, it will attract extensive attention from media, buyer delegations, and professional visitors, significantly boosting brand exposure and market influence.

CIOSSH 2025 Review

➔ Part of Exhibiting Brands

➔ Main Exhibit Categories

Safety at Work

- Personal Protective Equipment (PPE)
- Corporate Wear & Workwear
- Fabrics, Accessories and Components
- PPE Manufacturing Equipment
- Certification

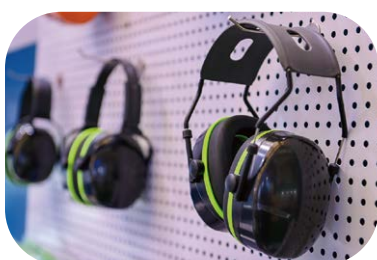

Security at Work

- Aerial Work Protection and Fall Protection Equipment
- Fire Protection and Rescue Equipment
- Monitoring, Surveillance Equipment & System
- Exoskeletons & Exosuits
- Management of Hazardous Substances

Health at Work

- Occupational Health Management and Prevention
- Workstation Architecture and Ergonomy
- Detectors in Workplace
- Hygiene and Sanitary Supplies

➔ Business Sector of Visitors

➔ Part of Trade Visitors

- Sinopec
- Qinshan Nuclear Power Plant
- State Nuclear Power Engineering Company
- China National Nuclear Corporation
- China State Construction Engineering Group
- China Shipbuilding Industry Co., Ltd.
- China Aerospace Science and Industry Corporation Limited
- Shanghai Electric Group
- SAIC-GM
- Overseas buyers from South Korea, India, Japan, Malaysia, Kazakhstan, Germany, Poland, France, the United Kingdom, the United States, Brazil, Australia, etc.
- Shanghai Baosteel Group Corporation
- Shenyang Railway Bureau
- Tianjin Zhonghai Oil Service Chemical Co., Ltd.
- PAG Engineering Co., Ltd.
- Amphistar Nanjing
- Shandong Weifang Rainbow Chemical Co., Ltd.
- Want Want Group
- China Baowu Steel Group
- Shanxi Coking Coal Group

➔ Target Visitors

- Specialized Buyers / Wholesalers / Distributors / Agents / OEM Buyers
- Offline and Online Retail Channels
- Purchasing Departments of Manufacturing Enterprises
- Administrator of Work Safety / Safety Engineer / HSE Management Department
- Inspector / Safety Supervisor
- Local Safety Supervision Departments Across China
- Fire Control Departments of Local Government Bodies and Enterprises
- Emergency Rescue Department

Trusted by the Industry

CHUKUA

Thulani Dubuya
Sourcing Manager

In Africa, comfortable working conditions are in high demand, and China's safety products—with their competitive prices and superior quality—have a strong market presence. Our company works closely with Zimbabwe's government fire departments, and we came to CIOOSH to procure protective gear for firefighters, including suits and helmets. The exhibition impressed me with its vast product range, exceeding my expectations. I'll consult with my colleagues back in Africa and return tomorrow with more precise requirements.

EPA

Rogelio Antonio Rodriguez Quijada
Marketing Manager

I've seen countless innovative products at the exhibition, such as head, eye, and face protection equipment and various protective wears. They are crucial for workers in Latin and North America. This was my first time at CIOOSH, and I've already connected with several companies during the matchmaking session. Technology is my top priority, and I hope Chinese products will surprise me. I plan to return next year."

CIOOSH 2025 Review

➔ Media Partners

Diverse Concurrent Events

Technical Seminar

The Technical Seminar will focus on breakthrough innovations, with launches of the latest products and technologies of exhibitors. These seminars offer participants a clear understanding of technical advantages, highlight emerging industry directions, and foster targeted business partnerships.

Trend Forum

The Trend Forum is a high-level gathering of industry leaders that examines the future of occupational safety and health. By analyzing policy developments and exemplary cases, it provides strategic insights and serves as a premier platform for knowledge exchange and thought leadership.

Live Demonstration of Fall Protection

Through realistic simulations of high-altitude tasks, live demonstrations illustrate comprehensive solutions for fall prevention and emergency response. Renowned safety brands will present end-to-end protection strategies to strengthen both operational skills and safety awareness.

Exoskeleton Technology Zone (EXO Park)

At EXO Park, visitors can explore how intelligent equipment alleviates physical strain and boosts work efficiency, gaining hands-on experience of its contribution to occupational well-being and workplace safety.

Safety Fashion Show

Merging performance with style, this dynamic fashion show reimagines protective equipment as both technologically sophisticated and visually striking, underscoring the integration of safety and design.
