Algeria's No. 1 business platform for
the plastics & recycling industries

Palais des Expositions d'Alger - SAFEX
www.plastalger.com

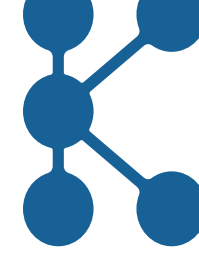

Welcome to the 10th jubilee edition of plast alger

Algeria's No. 1 business platform for the plastics and recycling industries!

Returning to Algiers for its landmark 10th edition, plast alger 2026 proudly showcases the vibrant momentum of Algeria's plastics, packaging and recycling markets. plast alger is held in conjunction with its sister event **printpack alger**.

Organised by fairtrade Messe and Messe Düsseldorf, plast alger represents an incredibly valuable event powered by **K – The World's No. 1 Trade Fair for Plastics and Rubber** and the **K – Alliance**.

VIDEO 2025

Boost local production and exports – Replace imports of consumables

Algeria stands as a leading investor in plastics, packaging and recycling across Africa and the Middle East. These strategic imports drive local production diversification, enhance export capabilities, and reduce dependency on consumable imports.

In this context, plast alger & Recycling Solutions play a pivotal role in promoting eco-friendly materials, fostering circular economy practices and raising public awareness.

Key insights into Algeria's rapidly growing plastics, packaging and recycling industry

- Imports of plastic raw materials grew by 7.8% annually between 2007 and 2024, from 304 kt to 1,095 kt in 2024. Algeria is thus the third largest importer of plastics in primary forms in Africa & Middle East, following the UAE and Egypt. (EUROMAP)
- Algeria's imports of plastics technology increased by 32% annually between 2020 and 2023, from €91m to €210m. This makes Algeria the second largest importer of plastics technology on the African continent after Egypt (€220m). (VDMA)
- With €161m in 2023, Algeria is the second largest importer of packaging technology in Africa, ahead of Egypt (€145m) and after South Africa (€194m). (VDMA)

A trusted platform – plast alger & Recycling Solutions gain strong support from local and global institutions

With backing from highly respected organisations – including international chambers, government ministries, trade agencies, and industry associations – this event reinforces its position as Algeria's leading business and innovation hub for the plastics, packaging and recycling sectors.

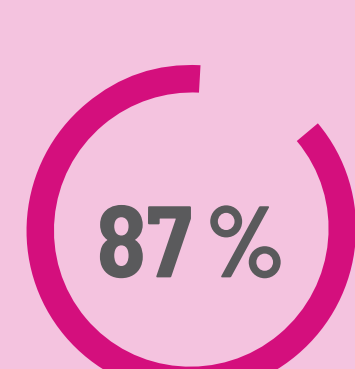

Review 2025

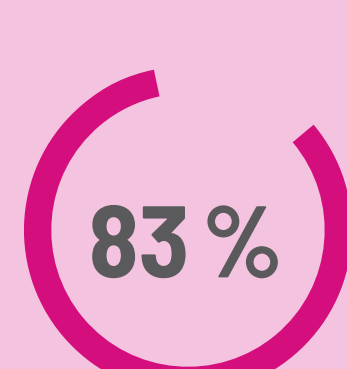

With 5,403 trade visitors from all of Algeria's industrial sites and beyond, and **302 exhibitors from 22 countries**, plast alger 2025 once again demonstrated its exceptional significance. Particular interest was shown in **Recycling Solutions**, reflecting Algeria's commitment to advancing circular economy initiatives for a sustainable future.
