## The Dependency and Future of the PETROCHEMICALS Industry – Towards More Sustainable PLASTICS, RUBBER & PACKAGING

Plastics, Rubber, Packaging, Automobile, Aviation, Fertilizers, Clothing, Digital Devices, Medicals, Pharmaceuticals, Detergents, Tyres, and many aspects of daily life are integral to modern societies, and the prominent chemical sector products, plastics, rubber and packaging which are indispensable in daily life.

Between 2025 and 2030, the United Arab Emirates (UAE) is poised for significant expansion in the plastics, recycling, petrochemicals, and packaging industries underscoring its commitment to economic diversification and sustainable growth.

Strategic investments and partnerships are positioning the nation as a key player in these sectors within the Middle East, with a notable emphasis on exports and re-exports to the African market & MENA region
